

Library eBooks and Your Kindle

Library eBooks now can be read on your Kindle. You need a computer with an Internet connection, and a valid library card. When using your Kindle for the first time, you will need to obtain an account at www.amazon.com and then register your Kindle device. Once you select your eBook from the WLN eMedia site, you will be transferred to www.amazon.com to download the eBook to your computer. The eBooks can then be transferred to your Kindle device either through a Wi-Fi network or through your Kindle's USB cable from your computer. The eBooks will not transfer to your Kindle on its 3G network. Also, only library eBooks and not library audio books will be available on the Kindle for downloading. Amazon and Overdrive do not provide support for library audio books on the Kindle.

1. The web site for eBooks is located at <http://wlnonline.lib.overdrive.com>. This is a different address than where you would access your patron account for print library books.

1. To look for an eBook you can either *Browse the Catalog* or do a *Quick Search*.

2. If you are interested in only seeing what eBooks are available, you can select the *Advanced Search* under the *Quick Search* box and scroll to the bottom and checkmark *Only Show Titles with Copies Available*. You can also change the *Format* from *All* to *Kindle Book*.
